## GDA Update for August

Much of July and August has been spent on responding to and preparing our members' voice for the consultations on Education's proposals on Secondary Education. We have met with the Education Sports and Culture (ESC) committee, Education department and members to start the discussion on greater Inclusion in Education. Please see the separate post on our website with meeting members Tuesday 22nd August, 6.30pm at the Youth Commission.

You will be pleased to know that the Disability & Inclusion Strategy board and Disability Discrimination Legislation Group have not taken a break for the summer, please see their updates' posts below.

As you will know we did not receive funding for the WAME We All Matter Eh! member manager post. This is having an impact on the work we can do having your voice heard, our communications and meetings. I will continue to do this on a voluntary basis over the summer but with the increased GDA activity in influencing government policy this will not be sustainable going forward. If you have any contacts for fundraising please do get in touch, our new Friends of the GDA met for the 1st time this week. All ideas and contacts welcome.

Talking of volunteers we have had a busy July recruiting new people for the GDA executive, WAME team for the campaign for 1st December, fundraising group, thank you to all of you for your support and energy, it's made this role less lonely and far more fun! We will be introducing everyone over the next few weeks. We are always seeking new volunteers to drive Equality of Opportunity forward in Guernsey so please do get in touch. Don't forget to check out our news blog and social media for regular updates on all our news. Thank you Karen, your Executive Director.

## Educations Proposals for Secondary Education

Education Sport and Culture (ESC) have released their Education proposals for Secondary Education which do not include consultation with children with disabilities and SEN (Special Education Needs).

The GDA, Wigwam, NAS/Autism Guernsey, a number of parents & carers, Disability officer and champion have met with the ESC committee and Education department on this subject and we would now like to feedback on those discussions.

A key part of any submissions we make will be your thoughts and priorities on Inclusion in Education, we have set up a meeting on Tuesday 22nd August at 6:30pm at the Youth Commission with this purpose in mind.

For anyone that was involved in the process November 2015 we will be following a similar model. To find out more and see what we produced 2 years ago please drop Karen an email.

For more information on the Education proposals go to [www.gov.gg/educationfuture](http://www.gov.gg/educationfuture)

## Health & Social Care (HSC) CareWatch

Whilst on the subject of your voice, in September we will be running a focus group on your priorities and ideas on Health and Social Care. This is an opportunity for HSC CareWatch to understand what is important to you (top 5 priorities). 12th September, 6:30pm Beau Sejour. If you would like to attend please email [Info@disabilityalliance.org.gg](mailto:Info@disabilityalliance.org.gg)

## Disability Officer Update

The 7th Disability & Inclusion Highlight report has been released

Please the link [here](#) to the 7th highlight report which outlines the progress on the work streams under the State's Disability & Inclusion strategy.

The overview of the report:

- The Disability Discrimination Legislation Project is making progress. Currently, the main focus is on establishing core principles and determining the basis of protection. The Committee has agreed that the disability discrimination legislation will be based on the social model of disability.
- Resource has been secured to develop a business case for the Equality and Rights Organisation (ERO) with a new member of staff joining the team in August for 12 months.
- Work is progressing on the Dementia Framework with Dementia Friendly training taking place across business, States services and interested Islanders. To improve signage for people with dementia and a range of other impairments, the Arts Commission and Access For All are working with a variety of charities to design more informative signs.
- The Youth Commission and the College of Further Education are working in partnership to develop ways of supporting young carers and will soon involve other services to provide a comprehensive support network for young carers.
- Guernsey Employment Trust continues to provide training for businesses on the Good Practice Guide and Employers' Charter which has been well attended with very positive feedback.
